Residential Area:	Unit 41 Villa Bianco, 23 Nentabos street, Rooihuiskraal north, centurion
Availability:	Immediately

PROFILE

Experienced Technical Applications Specialist(QA Engineer) with 7+ years in the IT and services industry, skilled in Agile and Waterfall environments, test automation, manual and mobile testing, and database management. Also brings 2 years of software development experience in Java and C#, supporting a strong understanding of the SDLC and STLC. A collaborative and detail-oriented professional with a passion for delivering high-quality software through effective testing strategies and continuous improvement. Strong communicator, quick learner, and adaptable team player who thrives in challenging environments and is committed to continuous professional growth and delivering reliable, high-quality solutions.

SUMMARY OF QUALIFICATIONS

Year Matriculated	2008(Completed)
Matric	Grade 12
Last School Attended	Extension K FET School

Year Obtained	2019 (Completed)
Qualification	B Tech Computer Science (Technical Applications)
Institution	TSHWANE UNIVERSITY OF TECHNOLOGY
Majors	Development software IV(Java), Software requirement and design IV, Project IV, principles of research IV.

Qualification	National Diploma in Technical Applications
Institution	TSHWANE UNIVERSITY OF TECHNOLOGY
Majors	Java Software developer, System software, Information system and design, development software.
Year Obtained	2015(Completed)
Qualification	Scrum Alliance_CSM_Certificate (Training)
Institution	AGILE42
Year Obtained	2017

Qualification	Java - Web Service Certificate (Training)
Institution	INCUSDATA
Year Obtained	2018
Institution	International Software Testing Qualifications Board
Year Obtained	In-progress
Qualification	ISTQB Foundation
Institution	International Software Testing Qualifications Board
Year Obtained	N/A

SKILLS MATRIX

*Skills Level

1- Appropriate training only. 2 – Limited practical Experience. 3 – Solid practical
4 –Extensive practical experience 5 – Specialist experience

Skills	Last Used	Skills level	Experience
Software Testing/ Business analysis tools			
Selenium, Appium, JMeter, cucumber, Garkin, JUnit, TestNG, RestAssured, Maven, Playwright, NodeJS	2026	5	7 years
SVN, Bamboo, Git, Bitbucket, Azure DevOps, Jenkins	2026	5	5 years
SOAPUI, POSTMAN, HP UFT	2026	5	7 years
JAD Sessions	2026	3	5 years
JIRA, Confluence	2026	4	5 years
TDD and BDD	2026	4	5 years
Development Languages/Tools			
Java, JavaScript, TypeScript, React, Flutter, Dart	2026	5	4 years
Microsoft Visual Studio	2026		3 years
IntelliJ, Eclipse, NetBeans	2026	5	5 years
Visual Studio Code	2026		3 years
Visual Basic.NET	2022	4	2 years
SQL, MySQL, Microsoft SQL server management studio 2008	2026	4	5 years
SWIFT, MQ'S, EMS	2022	3	2 years
JBoss, Glassfish, apache tomcat, Xamp, MQ	2025	4	3 years
C#.NET, ASP.Net, Entity Framework, API Web service (WCF, ASMX), IIS Empress server, ADO and LINQ	2017	4	3 Years
Java Technologies			
Hibernate, JSP, Servlets, JPA, EJB, JSF, JMS, JAXB, FIPA, ACL, OOP, SDLC, and micro services, Design patterns, Ajax, Java scripts	2022	4	3 years

Mobile- Android	2025	4	3 years
Spring and Spring Boot, Struts	2026	4	2 years
EJB, JMS, Session beans	2022	3	3 Years
RESTFUL web service (JAX-WR) & SOAP web service (JAX-WS)	2026	5	4 Year's
XML, JSON, XSLT, XSD, API	2022	4	4 years
Networking / Cloud - technologies			
A+	2022	2	2 years
AzureDevOps,Bamboo,Jenkins,Git	2026	4	4 years
N+	2020	2	2 years
Cyber security	2020	2	1 years
Cloud / Build - technologies			
FireBase	2026	2	1 year
Azure DevOps	2026	4	2 years
Lamnda Test	2026	4	1 year
Browsestack	2026	4	1 year
HeadSpin	2026	4	1 year
Bamboo	2022	5	3 years
Maven	2026	5	4 years
Gradle	2022	5	2 years
System Documentation technologies			
Sweager,Sphinx	2026	5	5 years
Operating Systems and technologies			
Windows	2026	5	6 years

WORKING EXPERIENCE (EMPLOYMENT)

Period	November 2025 – March 2026
Position	Software Quality Engineer – Mobile Application Tester
Employment type	Contractor
Reason for Leaving	End of the project.
Company	Samaha with HCL consulting at MTN
Responsibilities	• Test Planning & Strategy • Functional Testing • Usability Testing • Compatibility Testing • Network Testing • Localization Testing • Installation Testing • Security Testing • Interrupt Testing • Automation Testing – NodeJS,Playwright,TypeScript and Wdio

	• Bug Tracking & Reporting • Device & Compatibility Testing • Performance & Security Testing – Apache Jmeter • Collaboration • Release Validation • Cloud testing
--	--

Period	November 2024 – June 2025
Position	Software Quality Engineer
Employment type	Contractor
Reason for Leaving	End of contract
Company	ILab consulting at Shoprite Checkers
Responsibilities	• Test Planning & Strategy • Manual Testing • Integration Testing • Automation Testing - Playwright • Continuous Improvement • Bug Tracking, Reporting & Documentation • Device & Compatibility Testing • Performance & Security Testing • Collaboration & Agile Participation • Release Validation & Regression Testing • Mobile Application Testing • Web Application Testing • API Testing – TypeScript and Playwright • Mobile App Test Automation (Android and IOS) - https://www.sixty60.co.za/app-download.html

Period	April 2023 – November 2024
Position	Software Quality Engineer – Client Journey Team
Employment type	Contractor
Reason for Leaving	End of contract
Company	Expleo consulting at Nedbank
Responsibilities	• Test Planning & Strategy • Manual Testing • Automation Testing - BDD • Bug Tracking, Reporting & Documentation • API Testing – Rest Assured • Collaboration & Agile Participation • Release Validation & Regression Testing • Sanity & Smoke Testing • End To End Testing • System Testing • Functional Testing • Database Validation Testing • Web Application Testing

	• Risk Identification
Period	April 2022 – March 2023
Position	Software Developer
Employment type	Fulltime
Reason for Leaving	Wanted to switch from permanent to a contractor
Company	South African Reserve Bank
Responsibilities	• Develop Automated Test • Build and Maintain Test Frameworks • Participate in Software Development Process • Perform Manual and Exploratory Testing • Defect Identification and Debugging • Continuous Integration and Continuous Testing. • Performance and Load Testing • API Testing • Quality Engineering and Process Improvement • Collaboration with Development Teams
Period	August 2018 – March 2022
Position	Technical Tester Analyst
Employment type	Full time
Reason for Leaving	Got an offer in South African Reserve Bank
Company	First National Bank : Custody and Card IT - Team
Responsibilities	• Analyze Technical Requirements • Design Technical Test Cases • Execute Different Types of Testing • Test APIs and System Integrations • Database Testing • Automation Testing – Selenium and Java • Defect Management • Performance and Load Testing • Test Reporting and Documentation • Collaboration with Development Teams. • SWIFT Messaging (Custody Team & Card Team)
Period	May 2017 – September 2018
Position	Assistant Director – Java Developer
Company	SAQA
Responsibilities	• Plan, build or acquire, implement, monitor, upgrade multi-platform software systems such as Java, C# PHP and web service. • Manage service level agreements with service providers. • Provide user support and training. • Perform other IT related tasks as required by the IT Director from time to time.
Reason for Leaving	Got offer in FNB
Period	07 December 2015– 30 April 2017

Position	Graduate – System Developer
Company	Multichoice -Super Sport
Responsibilities	• System developer • System tester – Manual • System support • System Administrator • Monitor servers – MAM Team • Manage Media files, TSM server and system storage.
Reason for leaving	• Growth – Permanent post
Period	April 2015 – November 2015
Position	Intern – System Developer / System Administrator
Company	SABC
Responsibilities	• Assist in Creating Test Cases • Assist Execute Test Cases • Assist Perform Exploratory Testing • Identify and Report Defects • Retest Fixed Bugs • Learn Testing Tools and Processes • Document Testing Activities • Participate in Different Testing Levels • Install and Configure Systems • Maintain IT Infrastructure • Assist in Software Development • Learn and Apply Programming Languages • Participate in Code Reviews • Continuous Learning
Reason for leaving	• Growth

CORPORATE PROJECTS

Company Name	MTN
Project Names	MTN ONE – Uganda, Ghana, Ivory cost and Cameroon. User across these countries using the app to make transactions and view content.
Technologies	• GitHub • BrowserStack, HeadSpin and Lamnda test – Cloud Testing • Azure DevOps • Android studio • Mocha, Javascript, Jest, NodeJS, Allure report • Appium, Appium inspector, Uiautomator2 driver • Web Driver IO • Cucumber 7 Gherkin - BDD
Project	• <u>MTN MoMo Pay - Apps on Google Play</u>

completed link	• https://play.google.com/store/apps/details?id=com.mtn1app • https://play.google.com/store/apps/details?id=com.mtngn.mymtn&hl=en • https://play.google.com/store/apps/details?id=com.mtn.mtnkdir3&hl=en_ZA • https://play.google.com/store/apps/details?id=com.mtn.mtnkdir3&hl=en_ZA
----------------	--

Company Name	ILab consulting at Shoprite Checkers
Project Names	Sixty60 API – Test Automation of web services Sixty60 Mobile App – Test Automation of the Mobile App Pingo Web – Test Automation of the web-based app

PROFESSIONAL DEVELOPMENTS(PROJECTS)

Project Name	Web-API-Mobile Hybrid Test Automation Framework
Technologies	NodeJS, Javascript, WDIO, Playwright, Allure report, Appium, Jest
Purpose/Flow	This project contains hybrid test automation framework for web app, mobile app and Api. CI/CD pipeline is in progress. Project availability is upon request as the file is large for GitHub.
Link	File is too large for Github. Work Around is in progress for project availability.

Project Name	Employee Management – Test Automation Framework
Technologies	BDD - Java 24, Junit, Selenium, Cucumber and Gerkin and Maven.
Purpose/Flow	This project contains software automation testing exercises. Please

	refer to ReadMe on GitHub link below.
Link	https://github.com/Jiyanenm/auto-employee-management-framework
Project Name	Test Automation Framework for API
Technologies	Java 24, Rest Assure, Maven Cucumber, Gerkin and TestNG
Purpose/Flow	The main objective of this project is to design framework that will perform API testing. Please refer to ReadMe on GitHub link below.
Link	https://github.com/Jiyanenm/MyDogAPI_TestAutomation_Framework
Project Name	J-Meter: API Performance testing and GitHub pipeline integration
Technologies	J-Meter, Java, Maven, GitHub, Git
Purpose/Flow	Integrating JMeter with GitHub using the JMeter Maven plugin enables you to automate performance testing within your CI/CD pipeline
Link	https://github.com/Jiyanenm/JMeter_API_Performance_Testing_GitHub_Integration
Project Name	Tutor ME Android App
Technologies	Java 1.0.8, Android Native, PHP, Eclipse, MySQL, XML, JSON, Git
Purpose/Flow	Use my mobile App to become a tutor, book a tutor and search tutor.
Link	https://github.com/Jiyanenm/TutorMEApp.git
Project Name	Find Your Artist Android Mobile Application
Technologies	Android App APK Version 22.4, PHP, MySQL, Java, android, JSON, and Volley API.
Purpose/Flow	Register, login, search and book the local artist in your area.
Link	https://github.com/Jiyanenm/FindArtist.git
Project Name	Web Service (API) / Android Application (Qualification Authentication)
Technologies	Spring Boot (REST API), ngrok, Android studio, JPA, Maven, MySQL, Bitbucket
Purpose/Flow	Web API integrated with Mobile App to Authenticate qualifications. Using QR Codes.
Link	https://github.com/Jiyanenm/QualificationAuth.git
Project Name	Java Web service - Build and practice to design web services
Technologies	(RESFUL JAX-WR) JEE, Glassfish, JPA, JSON, EJB, JSP, SERVLETS, HTML, CSS, NETBEANS 8.0.2, BOOSTRAB AND Java Derby Database.
